We have collaborated with the cartoonist **Guy Delisle** to bring to life the characters of Famille Fabre and highlight them in our special range **GENERATION**. This orange wine, made from Sauvignon Blanc, is a tribute to **Louis Andrieu**, ancestor of Famille Fabre and inventor of the **colorimeter**, a machine used to determine the amount of color in a berry. Back in the old days, color and alcohol degree were used to determine the price of a wine. This machine can be seen at our Château. It was also exhibited during Paris Universal Fair in 1889 (same year as the Eiffel Tower).

2021: James Suckling 89, "Amber-tinged with aromas of tangerines, apple skins, licorice and honey. Ripe and textured with a medium body and an easy, dry finish."

2021: Jancis Robinson 16/20: "More pale amber-gold than orange in colour. Not a great deal on the nose – a little furniture-polishy and varnishy. But it tastes rather fabulous! Bitter oranges and very runny honey, choisya flowers and white pepper. Pink peppercorns too. A touch of sweetness – I wonder if this has a few grams of residual sugar in it? Not that it detracts from the wine in any way. It's a silky scarf of fruit and flowers flecked with lots of spice on the end. This has fun food-pairing potential..." (TC)
